FRIDAY EVENING, APRIL 15.

**TEETH TRAVELING AROUND THE BODY.**—A most remarkable star, comes from Middle-town, Orange county, N. Y. A maiden lady at that place on the 5th of January, 1859, swallowed a new set of false teeth, which became separated from the rubber mould in which they had been cast while raw, during her food. Before she could eject the food from her mouth the teeth had gone down into her stomach. The family physician was summoned, but all his efforts were unavailing. The teeth caused her to disconcert, and after some time the master was entirely forgotten. A few days ago Miss Cole, the lady in question, felt a sharp pain near her left shoulder, and upon examining the spot found what appeared like a worm under the skin. With the aid of a penknife she extracted a hard substance, which proved to be a tooth. She was at a loss to know how the tooth came to be in such an unusual spot till she suddenly recalled that she had, one year ago swallowed a set of teeth. During the past four days the lady has been cutting teeth all over her body and had at last accounts recovered twelve of the fourteen teeth that had formerly constituted her full set. She is now busily swatting the larva of the other two. She has placed the teeth in a glass case and will keep them as mementoes.
